ABOUT ME

I'm Raihan Kabir, as an enthusiastic and experienced in developing organized web applications, I worked with couple of start-ups and a established multi-dimensional business as full-stack web developer. Apart from these I worked with several web projects of different tastes. Some of them are reflected in my project section. I am a learner, love to code and solve problems. Currently solving problems at hackerrank in Python stack. I enjoy learning new cool technologies. I am seeking a challenging position that promotes learning and growth and needs a highly motivated and skilled team members.
